Boston

Esteemed friend

179 As referred to at our last interview the letter is enclosed - Make any caption to it that seems appropriate -

I have delayed sending it because I supposed there was a press of Anniversary matter -

The deep & sincere interest I take in the cause induces its sending now - That interest increases as does my gratitude to all who at all sympathize

I hope all are well - That visit to us was glorious - never will we forget it - never cease to cherish it - Love to thy whole family - from all of us - Thine cordially

Alfred H. Love

Dear friend

I still further withheld my letter as I found our good friend the Liberator teeming with valuable matter & knew I could forward it just after a very interesting meeting at Race St Meeting & now while the subject of the Enrollment Act is engaging Congress I feel satisfied it will receive all the attention it merits at their hands -

I feel that the subject is one for the next half century —

My good wife joins me in love to you all. She is suffering with a singular & severe affection of the throat - We shall look for some change as Dr. is giving it careful study - With heartfelt wishes for all thy friend

Alfred H. Love
